Shrink Film Sleeve

BestSub shrink film is the essential printing tool to use with sublimation oven and discover more DIY possibilities. Once heated, it will shrink to generate proper pressure to wrap the substrate tightly, therefore improve the ink absorption and create vivid printout results. It will never be a problem to imprint large and irregular-shaped drink ware partially or fully, and even realize seamless socks printing. Moreover, we can customize the size of shrink film to best fit your substrates and machines, to meet your requirements.

Max Heat-Resistant: 180°C /356 °F

Shrink Film Sleeve

Shrink film wrap is the essential printing tool to use with sublimation oven and discover more DIY possibilities. Once heated, it will shrink to generate proper pressure to wrap the substrate tightly, therefore improve the ink absorption and create vivid printout results. It will never be a problem to imprint large and irregular-shaped drink ware partially or fully, and even realize seamless socks printing. Moreover, we can customize the size of shrink film to best fit your substrates and machines, to meet your requirements.
